- Retirement income sources
- Current and future health status
- Loss tolerance

RBC WealthPlan, an interactive experience

- RBC WealthPlan allows you to take charge of your plan by utilizing the What Are You Afraid Of? tool. The tool focuses on plan variables that you cannot control. It allows you to see the impact of market or Social Security changes, inflation, plan returns, long-term care needs and other unexpected costs. Concerns identified through this feature are highlighted in RBC WealthPlan, reminding you to address them.
- RBC WealthPlan also allows you to take charge of your plan by utilizing the Play Zone®, a tool that allows you to modify the things you can control — for example, if you retire earlier or later than you have currently planned, trade-offs that may be needed for one of the wants or wishes, and the importance of maximizing contributions in your later working years. Play Zone® allows you to see what is possible in retirement given the resources that you have.
